

# CLEAN DISC

## DESCRIPTION

Rapidly and efficiently removes rust, oxide layers, bruises on stainless, coatings, paints, scale and oil residues.

## PROPERTIES

- Provides a sandblaster effect on the surfaces and allows cleaning without damage.
- No risk of corrosion on treated surfaces and does not smear out even on thick layers of paint and dirt.
- Can be used maximally and sands down automatically to the last millimeter and thereby saves time and money.
- Safe for the user and environment. The backing plate is flexible and made of natural fiber that doesn't produce any hazard fiberglass dust.
- The integrated M14 thread makes it much easier to change the disc and no clamping nut is required.

## FIELD OF APPLICATION

- Ideal for pore deep cleaning of both hard and soft metals, wood, welds, stone, concrete and more.

## USER INSTRUCTIONS

Make sure the grinder does not exceed the maximum speed 5000 rpm.

Ideal speed 2.000 - 4.500 rpm.

Be careful, use the safety equipment and avoid grinding on sharp edges.
