

# FOAM GUN

## DESCRIPTION

A professional dispensing gun for single-handed, direct and accurate application of one part foam. Is ideal for use with gun applied foams as Foam Plus and Foam Zero Plus.

## PROPERTIES

- Is a professional and sustainable foamgun which is fast and easy to use.
- Makes it possible to work with precision and minimal waste.
- Is ergonomic and practical to work with.
- Non-stick coated adapter basket, outlet nozzle, barrel, body and ball valve to promote easy cleaning.
- The adjustable screw makes it easy to accurately obtain the desired flow.

## FIELD OF APPLICATION

- Fits Foam Plus, Foam Zero Plus and most standard gun foam cans with a screw on barrel.
- Supplied with plastic nozzle that extends and simplifies the work in confined or inaccessible space.
- Proper storage and cleaning results in several years of functionality.

## USER INSTRUCTIONS

1. Take a can of Foam Plus or Foam Zero Plus and shake vigorously for at least 20 seconds.
2. Screw can on to adapter of gun, but not too tight.
3. Release the flow adjustment screw lightly and dispense foam immediately to fill the entire gun with foam.
4. The Foam Gun is now ready for use.
5. Foam output can be controlled with flow adjustment screw.

### After use:

1. Leave gun filled with foam after use. Always keep a filled can of gun foam on the gun.
2. Tighten the flow adjustment screw completely. Do not empty the gun. Gun must always be filled with foam, otherwise foam is cured due to the humidity in the air.
3. Put can away in a vertical position with gun upwards.
