

# MICRO POLISH

## DESCRIPTION

Cleans and provides a shiny surface with show room effect quickly and easily without the need for water or any other products. Effective on virtually all surfaces. Very easy-to-use, save time, water and working hours. Rejects dirt and water, facilitates cleaning, protects and causes the water to pearl and rinse off. Green World classified, safe for the user and the environment.

## PROPERTIES

- Do not use in areas for painting works, printing etc. The formulation contains waxes and a small part of silicone!
- Provides a clean and polished surface directly on the spot.
- No need for water, chemicals, machines or car washes.
- Cleanses, protects and gives a long lasting lustre with a simple treatment without water.
- Makes the water pearl and roll away.
- Leaves an invisible film protecting against UV-radiation, dirt build up, oxidation, salt, tar etc.
- Leaves no waste water and is Green World classified contains environment friendly substances.
- Saves time and money. Eliminates the need for additional products.
- Designed for cleaning of lightly-soiled surfaces.

## FIELD OF APPLICATION

- Excellent for lacquered and painted surfaces, metal, chrome, glass, rubber, vinyl, plastic etc.
- Both interior and exterior. MC, boats, water- and snow scooters, caravans, vehicles, machines etc.
- May be applied directly to the surfaces or into the micro cloth.
- Can be applied to both dry and wet surfaces.
- Avoid using Micro Polish in direct sunlight.

## USER INSTRUCTIONS

Spray the surface and wipe the dirt with a clean Micro Max Large cloth with light hand pressure. Wipe dry with the polish cloth Micro Gloss. Work in sections. With minimal work, a clean and polished surface with Show Room Effect is reached!

It is important to use clean cloths. Fold the cloths continuously and sweep with a light hand. A dirty cloth with e.g. gravel and a hard pressure creates a risk of scratching the surfaces.
