

# LIGHTER REFILL

## DESCRIPTION

Premium butane gas for optimum performance to refill VEIDEC T-500 and Micro Torch.

## PROPERTIES

- High quality lighter gas.
- Low quality gas can cause clogging of the burner valve or malfunction.
- With CO2 neutral propellant that is naturally produced via waste = Green Propellant. Replaces propane and DME propellants derived from oil and gas.

## FIELD OF APPLICATION

- To refill T-500, Micro Torch and other types of gas containers, lighters, etc.

## USER INSTRUCTIONS

Do not refill immediately after using the lighter.

Shake the can.

Always refill the lighter holding the can upside down so the nozzle points downwards and away from your face.

Connect the aerosol bottle's nozzle to the lighters valve.

Keep a steady pressure and make a number of insertions (around 5 sec each).

Wait 3-4 minutes.

Lighter is refilled and ready to use.
