

# MICRO TORCH

## DESCRIPTION

Is a professional and patented butane gas powered burner for temperatures up to +1300°C.

## PROPERTIES

- Quick and easy to light with built-in Piezo igniter.
- All metal which improves the safety and durability.
- Each MRT is separate tested to meet the expected quality.
- Automatic pressure reduction at higher temperatures\*.
- The effect is adjustable and the flame is steady and stable in temperatures up to 1300°C, regardless of position.
- Practical and functional even in confined space.

## FIELD OF APPLICATION

- Heating of plastic and metal parts before bonding.
- Melt ends on nylon ropes that have been cut off.
- May be used for repairs as well as production.
- Heat up frozen locks/hinges.
- Take away old glue (anaerobic/Lock-on/Lock-seal)
- Melting tin.
- Heat shrinking tubes / connectors.
- Dental and laboratory work.

## USER INSTRUCTIONS

1. Fill with VEIDEC Lighter Refill gas in filling valve (fill always at the side of the body – security reasons).
2. Adjust gas control lever to maximum.
3. Ignite by pushing the button.

When using Micro Torch in cold environments it's recommended that you warm the gas tank with your hands before you ignite.

\* If temperature reaches >+73°C, gas is released to avoiding it from exploding.
