

SEAL FINISH

DESCRIPTION

Seal Finish is a silicone-free, water-based and pH-neutral tooling agent for the professional shaping and finishing of fresh sealants. The product wets the tool and makes it easier to form a smooth joint before the sealant begins to skin over.

PROPERTIES

- Ready to use VOC free product.
- Silicone-free, water-based and pH-neutral formulation
- Facilitates shaping and finishing of the fresh sealant joint
- For MS and SMP hybrid, silicone, PU and acrylic sealants
- Can be used on natural stone and sensitive surfaces
- Transparent and colourless liquid with a mild, slightly soapy odour
- Included in the Green Line premium product range
- High % of Readily Biodegradable content

FIELD OF APPLICATION

- Workshops, industry, building & construction, assembly and property maintenance
- Vehicle construction, marine applications and installation
- Jointing against natural stone and other sensitive surfaces

USER INSTRUCTIONS

Seal Finish is used immediately after the sealant has been applied and before it begins to skin over. Can be used in two different ways:

Spray directly onto the joint:

1. Shake well before use and spray a thin layer onto the fresh joint.
2. Then, run a finger along the joint until it has the desired shape and finish.
3. Remove excess tooling agent with a cloth or clean water before it dries.

Do not use more product than necessary.

Use a jointing tool:

1. Shake well before use and pour into a separate, clean container.
2. The sealant must be in complete contact with the joint flanks before use.
3. Lightly dip the tool in Seal Finish, shape the joint and remove excess sealant.
4. Wipe the tool regularly with paper.
5. Remove excess tooling agent with a cloth or clean water before it dries.
6. Do not pour used liquid back into the original packaging.

NOTE!

- If used improperly, the product can cause stains on sensitive surface
- It is advisable to use the tooling agent as sparingly as possible
- If the sealant is to be painted over, clean with fresh water before painting.
