

RAPTOR DISC

DESCRIPTION

Raptor Disc is a unique flap disc with a self-trimming hybrid-backing-pad made of environment friendly natural fiber material.

With multigrain grinding cloth for long service life and aggressive grinding on steel, stainless steel, aluminum and other metals.

PROPERTIES

- Are extremely efficient from start to finish with the highest level of removal on all kinds of hard and soft metals.
- Have a unique grain mixture that removes like a 40 grain disc.
- Can be used maximally and sands down automatically to the last millimeter and thereby saves time and money.
- Safe for the user and environment. The backing pad is flexible and made of natural fiber that doesn't produce any hazard fiberglass dust.
- Reduces vibration and noise and has insulating properties that prevents discoloration of the work pieces.
- Is the optimal Flap Disc with aggressive removal and unique features.

FIELD OF APPLICATION

- For grinding all type of metal surfaces.

USER INSTRUCTIONS

When the backing plate gets in contact with surfaces it smells like cut wood and is not harmful.

Please read our - SAFETY RECOMMENDATIONS FOR THE USE OF ABRASIVE PRODUCTS before you start working with Raptor.

RAPTOR DISC - RPT

This product information is property of VEIDEC AB and is not to be forwarded to third persons without our agreement. The product information has been made out according to our experiences; the corresponding distributing company has to point out probable characteristics as to the use of the product as the application fields are often very different. The recommendations as to technical use are not binding and do not justify any contractual relationship and subsidiary obligations under the contract of purchase. They especially do not relieve the buyer from testing our product on his own as to the suitability for the designated field of application.

RAPTOR DISC

TECHNICAL DETAILS

Packaging:	10 pcs (shrink wrapped).
Colour:	Yellow, with black backing pad.
Diameter Ø:	115 mm disc: Art.no. 35544 125 mm disc: Art.no. 35545
Material:	Backing pad: Natural fibre backing. Grinding material: Ceramic cloth.
Core diameter Ø:	22,2 mm
Grain seize:	40/60 Multigrain.
According:	EN 13743
Certificate:	MPA.
Max RPM:	13 200 / 80 m/sec – 115 mm disc 12 200 / 80 m/sec – 125 mm disc
Ideal RPM:	6 000 – 8 000 - 115 mm disc 6 000 – 7 000 - 125 mm disc
Others:	Read first the safety recommendation for the use of abrasive products
User Instruction:	Scan the QR-code for video and other information.

SYMBOLS

For your safety: Always wear breathing mask.

For your safety: Always wear ear protection.

For your safety: Always wear safety gloves.

For your safety: Always wear eye protection.

CERTIFICATES

Test of material, components and chemical analysis. MPA is the German material testing institute. It's an governmental institute like the TÜV. According to the EU Regulations EN 13743; it would be enough to do in house tests, but we prefer to get additionally an external proof of our quality.

FEATURES

Can be used maximally and sands down automatically to the last millimeter and thereby saves time and money.
